NORTON
SAINT-GOBAIN

3M *Scotch-Brite™*

Use on right angle or vertical shaft grinders to remove surface defects, flashing, rust and corrosion, paint, or scale. Also good for cleaning molds, blending mill and tool marks, and imparting finishes.

Merit and Scotch-Brite™—Aluminum oxide grit is excellent for finishing, cleaning, and light deburring; great for general purpose surface conditioning.

Norton Rapid Prep—Provide a smear-free finish, even on high nickel-content alloys; excellent for finishing and blending. Proprietary coating helps extend disc life.

Norton Vortex Rapid Prep—Proprietary aluminum oxide grain and coating help cut process times in half, and wear up to 4x longer. Provide a smear-free finish and will not load on aluminum and soft metals.

Scotch-Brite™ AL—Non-woven discs have open web construction for outstanding blending and finishing capabilities, and excellent loading resistance; last up to twice as long as standard discs.
