Tool Retractors

ADJUSTABLE TOOL RETRACTORS

Include adjustable cable stop and lower safety hook.

Hubbell BD Series—Rugged ABS plastic construction with spring tension adjustment and push-button tension release.

Hubbell BG Series—Steel construction with a black polyester baked finish. Available in both ratcheted and constant pull configurations.

INDUSTRIAL TOOL RETRACTORS

Speedaire—Rugged steel construction; permanent lubrication; easily replaceable, self-contained main spring. External tension adjustment requires no special tools. Include adjustable cable stop and safety hook.

Ingersoll Rand—Rugged steel retractor has a permanently lubricated, self-contained main spring that is easily replaceable. External tension adjustment requires no tools. Nylon-coated steel aircraft cable with adjustable cable stop and safety hook.

PRODUCTION TOOL RETRACTORS

Easy cable tension adjustment, in-line alignment of hanger and tool hook, and maintenance-free design.

Speedaire—Die-cast aluminum units feature 3 suspension points.

Ingersoll Rand—Feature in-line adjustment of hanger and tool hook.
