

1-800-GRAINGER (472-4643)

Dust Collectors

Dust collection systems remove dust and dirt particles from the air, and return filtered air to the room.

Bag-Style Filter—Bag filters can be laundered and reused. Chip capacity is 90% @ 2.5 microns.

Cartridge-Style Filter—99.98% efficient cartridge-style filters remove particles from the air as small as 0.5 microns.

Portable Abrasive Blasters

For removing rust, scale, paint, and dirt from metals, wood, brick, and stone.

Note: Additional ALC accessories and parts are available on Grainger.com®.

Siphon-Feed—Westward model includes blast gun and 3/16" ceramic nozzle. 10Z912 has a steel hopper with pull handle and 6" wheels for easy maneuvering around the jobsite. 15E765 and 15E766 have steel construction and can be used with most dry abrasives. 15E766 includes sturdy steel cart with two 6" wheels.

Pressure-Feed—All Westward units include an air line filter and pressure gage to control airflow. 10Z914 and 10Z915 have a recessed top for filling of blast media. 15E742 and 15E745 have powder-coated steel construction with a manual pull-up tank closure and deadman handle design; can be used with most dry abrasives. Include hood.

Siphon Gun Blaster Kit—Simple blaster is ideal for small projects.
