Welding Curtains and Rolls

Curtains—Use to enclose robotic welding cells and other welding work areas to create a customized, enclosed space and help protect personnel and equipment from welding sparks, spatter, and slag. Silicone Coated Fiberglass Curtains have one grommet on each corner.

Curtain Rolls—When you need extended or other custom sized curtains, this economical solution can be cut to size. Curtain Rolls With Grommet have grommets on 12" centers on one side.

Screens, Curtain Walls and Booths

Screens, walls, and booths help safely confine hazardous sparks, arcs, or open flame in open areas, where there is no place to hang a curtain.

Screens—Easy-to-assemble kits include flame- and heat-resistant sides and a sturdy, freestanding steel frame.

Curtain Walls and Booths—Track and roller Curtain Walls provide good protection, while maintaining easy access. Kit includes curtain, 18-ga. steel track, rollers, and suspension mounting hardware. 4-sided Welding Booth Kit enclosures have one side with a sliding curtain wall and 3 fixed sides.
