

REELCRAFT

Arc Welding Cable Reels

Corrosion-resistant powder-coated finish. Hand crank reels include lead wire. Spring drive reels have vibrationproof, self-locking latch and permanently lubricated bearings.

Twin-Line Welding Hose Coupled Assemblies

Welding hose assemblies come with fittings installed on both ends of the hoses and have two hoses: a green hose for carrying oxygen to welding equipment, and a red hose for carrying acetylene to welding equipment. The hoses have oil-resistant covers. The hoses' cover resists flames and oils.

COXREELS REELCRAFT

Welding Hand-Crank Reels

Max. operating pressure: 200 psi

Reinforced steel construction includes powder-coated finish for corrosion resistance. These low-pressure reels mount on the floor, wall, bench, or on trucks. Reels use Grade R (oxygen and acetylene gas) or Grade T (oxygen and fuels) hoses. They are used with oxygen and acetylene welding hoses in applications where space, weight, and flexibility are important.

Hose Cap.	Swivel Material	Reel Color	Overall Dim.	Brand	Item No.
100 ft (1/4 in I.D.)	Brass	Blue	12 in L x 14 1/2 in W x 13 in H	Coxreels	33N139
150 ft (1/4 in I.D.)	Aluminum	Black	18 in L x 16 1/4 in W x 19 in H	Reelcraft	4NB18
250 ft (1/4 in I.D.)	Aluminum	Red	28 3/8 in L x 21 3/8 in W x 20 1/4 in H	Reelcraft	41GR96

REELCRAFT COXREELS

Welding Spring-Return Hose Reels

Max. operating pressure: 200 psi

Reels have an independent dual-swivel design that allows a positive separation of gases with double sealed O-rings to prevent leaks. The dual-swivels are made from aluminum that's hard-coated for wear resistance, and the swivel body and inlet are permanently identified with machined grooves on the gas side to assure proper installation. Reinforced steel construction includes powder-coated finish for corrosion resistance. These low-pressure reels mount on the floor, wall, ceiling, bench, or on trucks, and include an adjustable guide arm.

TURBOTORCH

BERNZOMATIC

Torch Kits and Accessories

Kits feature quick-disconnect handles and tips. O-rings are color-coded for quick gas identification. Tips feature swirl combustion for higher target temperatures.
