Find more Degreasers on pages 1506, 1506 to 1506 in the Cleaning & Janitorial section.

Water-Based Degreasers

■ Ready to use

Liquid water-based degreasers use water as a primary solvent, plus detergents, emulsifiers, cleaning agents, surfactants, and other compounds, to dissolve soils or make contaminants more dissolvable in water.

Natural-Based Degreasers

■ Ready to use

Liquid natural degreasers use organic sources for their base including citrus, soybean oil, coconut oil, and ethyl lactate (renewable carbohydrates). Scents are lighter and fresher than solvent-based cleaners.
