SPEEDAIRE™

Thumb-Lever Air Guns

- Focused air flow pattern
- Air inlet: 1/4" (F)NPT

Deliver a high-pressure airstream and have a lever on top of the body to form a compact handpiece that can reach into tight spaces where pistol-grip air guns won't fit.

Adjustable Pocket-Grip Air Guns

- Focused air pattern
- Straight nozzle angle

The inline design aligns the nose with the handle to form a slim, cylindrical body to access recesses and tight spaces and deliver a high-pressure airstream. The included nozzle rotates to adjust airflow for detailed cleaning and blowing.

Sound Level	Output Thrust	Air Inlet	Body Material	Overall Length	Brand	Item No.
87 dB	—	1/4" ARO	Anodized Aluminum	4 1/4 in	Legacy	41HE59
98 dB	0.7 lbf	1/4" Automotive	Aluminum	4 3/8 in	Speedaire	458J51

GUARDAIR.
Ergonomic-Grip Air Guns

- Focused air flow pattern
- Straight nozzle angle
- OSHA Pressure Compliant

Grip sets the wrist in a natural position and reduces hand fatigue for a comfortable hold during extended use. Have a long lever to hold down while gripping the tool and delivering a high-pressure airstream.
