

GROZ Modular Air Filter/Regulator/ Lubricators (FRLs) **DYNAFLO®- AND JUPITER PNEUMATICS®-COMPATIBLE**
▪ Groz products are compatible with Dynaflo® and Jupiter Pneumatics® FRLs

General Purpose Filters

Help separate dirt, dust, and moisture from compressed air and feature a built-in nighttime drain that automatically operates once the main air line is turned off. 40-micron bronze filter element provides long service life. Aluminum bowls are ideal for use where ambient air may contain chemicals.

General Purpose Regulators

Maintain steady outlet pressure and unaffected by variations in the inlet pressure. Can be mounted horizontally, vertically, at an angle, or upside down. Adjustment range 7 to 145 psi. Include panel mounting nut.

In-Line Lubricators

Maintain a constant oil-to-air density to help increase air tool life. Aluminum bowls are suitable for use where ambient air may contain chemicals.

In-Line Filter/Regulators

Air filter and air regulator all in a single unit. Feature a nighttime drain that automatically operates once the main air line is switched off. The built-in, 40-micron bronze filter can be easily cleaned and offers long service life. Pressure adjustment range: 7 to 145 psi.

2- and 3-Pc. Combination Filter/Regulator/Lubricator Units

Choose a compact, 2-pc. model or a fully modular 3-pc. combo unit. All include a wall mounting bracket. Built-in piping adapters allow you to easily remove/mount individual components without disturbing the air line.
