Air Admittance Valves

- Use as individual, branch, circuit, or stack vents

Allow air to enter DWV systems to equalize pressure when water drains out of the system; eliminate the need for costly roof penetrations and vent piping. 1ATD5 and 1ATD6 meet ASSE 1050/1051 and NSF 14.

Type	For Use With	Pipe Dia. - Drains	Color/ Finish	Material of Construction	Item No.
MAXI-VENT®	Circuit Vent Or Stack Type Application Up To 500 DFU, Individual Branch, Venting Single Fixture	3 in to 4 in	White	ABS	1ATD5
MINI-VENT®	Venting Single Fixture, Individual Branch, Circuit Vent Or Stack Type Application Up To 160 DFU	1 1/2 in to 2 in	White	ABS	1ATD6
MAXI-FILTRA™	Filtering Sewer Gas	3 in, 4 in	Black	ABS	15W940
MAXI-CAP™	Maxi Vent(R)	—	Silver	Aluminum	15W941

1ATD5

Vent Stack Odor Eliminator

Activated carbon (included with filter) helps stop offensive odors, including hydrogen sulfide gas, produced in commercial and residential drain pipes and septic systems. Unit easily attaches to vent stack pipes.
