

Drain Sumps and Trench Pans

■ Wheel load rating: Class C

Compatible with various pipe sizes including 4" dia pipe. **Drain Sumps with Grate** feature a universal snap-in pipe seal and a contoured bottom that directs all water to the drain to help eliminate standing water. For use in landscape or hardscape drainage and below downspouts. **Trench Pan Drain** and **Trench Pans** are for use in concrete, linear surfaces including driveways, floors, and truck docks.

Roof Drains

Protect connected piping and drain sump from debris. For use on flat roofs.

JR Smith—11U241 and 11U242 include flashing collar and mounting screws. 11U240 retrofits most existing roof drains to accept a Jay R. Smith dome.

Watts—1WXC4 includes flashing clamps with integral gravel stop and self-locking poly dome.

Zurn—22F375 and 22F376 include a combination membrane flashing clamp/gravel guard. 22F405 and 22F406 feature a drop-in connection to ease installation.
