Shower Stalls, Chairs/Seats & Curtains

Shower Stall, Panels, and Bases

Shower Stall is a prefabricated, ready-to-install unit that includes walls, floor, showerhead, faucet, and curtain. It can be fully enclosed with an optional glass door. Commonly found in residences, motels/hotels, and school, gym, or factory locker rooms. **Shower Faucet Panels** replace existing showerheads with one oversized panel. They are often used to retrofit existing showers and include valves, showerheads, water outlets, and volume controls. **Shower Base** is the floor that fits inside shower wall panels. Drain included.

Shower Chairs & Seats

Provide a stable seat for seniors or individuals with balance, mobility, or other physical limitations to rest on while bathing or taking a shower. Help people lower and lift themselves out of the shower safely and independently, reducing the risk of slips and falls. Often used in residential areas, hospitals, nursing homes, or other care facilities.

Hookless®

Shower Curtains, Rods & Rings

Standard Shower Curtains—Pair with liners to prevent mold and mildew.

Standard Shower Curtain Liners—Water-resistant and pair with compatible hookless shower curtains. Attach to curtains with snaps for fast and easy installation and removal. **Ligature-Resistant Shower Curtain Systems and Tracks**—Typically used in prisons, behavioral- and mental-health institutions, or similar facilities where inmates or patients may be at risk of harming themselves. Tear-resistant curtains attach to tabs instead of rods and easily break away when pulled or weight is applied. Tracks suspend ligature-resistant shower curtains alongside or around showers, and are made of aluminum material with anodized aluminum finish. **Rods & Mounting Hardware**—Compatible with standard shower curtains, and include screws and anchors.
