Automatic Flush Valves

American Standard

Touchless Sensor models have a chrome finish and a proximity sensor for hygienic hands-free operation with mechanical override. Self-cleaning piston helps prevent clogging and reduces maintenance. Range and flush volume can be adjusted manually or with Remote Control 24X050, sold separately on Grainger.com.

Sloan—Sensor-activated with exposed, diaphragm-type flushing system. 3-sec. delay. Courtesy Flush override button on toilet type only.

Bedpan Washing Systems

- ADA compliant with vandal-resistant stop cap, except American Standard

Sloan has exposed diaphragm-type, closet flush valve for floor-mount or wall-hung bowls with a 1 1/2" top spud. All have 1-pc. body to keep spray arm upright. Include valve body, stop body, diverter body, and diverter pivot, except American Standard has no valve. For information on standards, go to Grainger.com.
