**Baby Changing Station  
6PXW4**

**Baby Bathroom Safety Seat  
35MG25**

**Adult Changing Station  
39F740**

## Changing Stations & Liners

- Changing stations and safety seats are ADA compliant

**Changing Stations** provide an elevated surface that is safe and accessible for parents and caregivers to change, clean, and assist infants, toddlers, and people with disabilities. Antimicrobial surfaces fold out easily. **Liners** cover changing station surface areas and provide a clean, sanitary, and hygienic surface for diaper changes and clean-ups, and are disposable. **Safety Seats** mount vertically to walls in public bathrooms and provide a safe area for babies and small children to sit. Bacteria-resistant seats are easy to clean and have a safety strap that prevents falls and slips.
