

## Black Steel & Iron Pipe & Pipe Nipples, Schedule 40, 80 & 160

\*Grainger's product supplier has certified that products marked "Made in USA" comply with "Made in USA" requirements in accordance with FTC rules and guidance.

• MNPT connection

Uncoated black steel, also called black malleable iron, is made from corrosion-resistant ungalvanized steel and includes a scaly, dark-colored iron oxide coating on the surface. Pipe connects with fittings to transport gas and water, protect electrical wiring, or deliver high-pressure steam and air. Threaded connections use PTFE tape to secure seal.

**SCHEDULE 40:** Low-pressure (100-299 psi). Used in low-pressure plumbing applications including air, water, oil, natural gas, and steam.

**Schedule 40 Fully Threaded Nipple**

**Schedule 40 Threaded on Both Ends Nipple**
