

## Fiberglass Pipe Insulation

### Approved Vendor Pipe Fitting

**Insulation**—Preformed fiberglass insulation for 90° elbows and tees eases installation and provides for greater thermal performance. Includes matching PVC cover. Installs with 1" Pipe Fitting Insulation Tape 6WXE4, sold separately. Use 3" Pipe Insulation Tape 4LFJ3 to seal butt joints. Insulation meets ASTM C547 and C300 Series.

- Application temp. range: 0° to 450°F
- White color

### Owens Corning Fiberglass Pipe

**Insulation**—The pressure sensitive adhesive system features a self-sealing flap to ease installation. GREENGUARD Certified.

- 3-ft. lengths
- Service temp. range: 0° to 1000°F
- White color jacket

### Owens Corning ASJ Max Fiberglass Pipe

**Insulation**—Cleanable, encapsulated paper jacket doesn't support mildew or mold growth. Jacket resists moisture during intermittent, short duration precipitation exposure during installation (with joints sealed per installation guidelines). SSL Max closure system provides a tight, reliable seal without glue or staples. Certified by SCS Global Services to contain a minimum of 53% recycled glass content, 31% pre-consumer and 22% post-consumer. GREENGUARD Gold Certified. Meets UL 723, ASTM E84, and CAN/ULC S-102, ASTM C547, and ASTM C1136, Types I – IV.

- 3-ft. lengths
- Service temp. range: 0° to 1000°F (with heat-up schedule)
- White color

### Owens Corning 3"-Wide Pipe Insulation

**Tape**—Seals end joints and completes the closure systems.

- Service temp. range: 25° to 110°F (ambient)
- Service temp. range: -20° to 150°F
- White color jacket

MINIMUM QUANTITY OF 3" WIDE ASJ TAPE ROLLS REQUIRED		
Iron Pipe or Copper Tube Size (in.)	No. of Sections per 25-ft. Roll	No. of Sections per 150-ft. Roll
1/2 to 1 1/2	up to 10	up to 60
1 1/2 to 3 1/2	up to 8	up to 48
4 to 6	up to 5	up to 30

*Example: 15 sections of 1.0" nominal pipe size would require two 25-ft. rolls of tape.*

## Fiberglass Pipe Insulated Fitting Covers and Insulated Jacketing

- White color

Easily fit around pipe to create a protective barrier. Suitable for indoor or outdoor use on chilled water, hot water, steam and other piping systems in commercial, industrial, and institutional applications. Insulated Fitting Covers, when combined with Insulated Jacketing and PVC solvent cement (sold on page 2710), can form a sealed system suitable for washdown applications in food, beverage, and pharmaceutical facilities. Comply with ASTM D257, D638, D790, D792, D1784, D3679, E84, E136; USDA, ICBO, SBCCI, and BOCA.

### FIBERGLASS INSULATED FITTING COVERS

- Temp. range: -32° to 150°F
- R-value: 3.5

Fit over bare pipe elbows; include insert. PVC and fiberglass construction.

### PVC INSULATED PIPE JACKET

- 4-ft. lengths
- Temp. range: -30° to 150°F

Fits over bare pipes and pipe insulation. PVC construction.

Fits Max. O.D.	Approx. R Value	90° Elbow Item No.	End Cap Item No.	Tee Item No.
