### Wall-Mounted Hand Sinks & Hand Wash Stations

All-purpose stainless steel sinks are anchored to and supported by a wall, which eliminates the need for oversized cabinets or countertops. **Sinks With Faucets** are gooseneck faucets, except 3LMR5, which is a double-joint faucet, and 11U391, which is a low-arc faucet. 11U392 includes eyeshaw attachment. **Sinks Without Faucets** have openings for drainage and additional 7/8" holes in the splash for faucets and handles.
