Counter-Mounted Drop-In Utility & Laundry Sinks

Utility sinks have a deep single bowl, an opening for drainage, and are made of SMC Fiberglass for extra strength and durability. They "drop" into a hole in the countertop and have an edge that overhangs the countertop to keep it in place. Sink accommodates a single- or dual-handle faucet with a 4" center that mounts to the deck.

Wall-Mounted Utility & Laundry Sinks

These service sinks eliminate the need for cabinetry and provide storage space below the sink. They install directly on walls and have a deep bowl for soaking, scrubbing, or rinsing.
