Black Steel & Iron Pipe Nipple Assortments, Schedule 40

- NPT connection
- Welded construction
- Low-pressure (100-299 psi)

Schedule 40 pipe nipples have thicker walls than Schedule 10, but not as thick as Schedule 80.

Threaded Uncoated Black Steel & Iron Pipe Fittings, Class 125, 150, 300 & 3000

- Tees read: run x run x outlet

Connect to black steel and black iron pipe for transporting gas and water, protecting electrical wiring, or delivering high-pressure steam and air. Also

called black malleable iron fittings, they are made from corrosion-resistant ungalvanized steel with a scaly, dark-colored iron oxide coating. Used in piping systems to change direction or connect to equipment or devices. Threaded fittings twist onto pipe using various male and female thread connections.

CLASS 125: Low pressure (100-299 psi). Designed for use in fire protection applications.
