

1-800-GRAINGER (472-4643)

Light-Duty Industrial Wall-Mount Fans

- Ball bearings
- Unassembled
- OSHA-compliant wire guards

Fans cool light manufacturing areas, warehouses, and other dry, clean spaces where floor space is limited.

Airmaster Fan—2HYH1 through 2HYH3 feature pull chain speed switch and yoke mount which attaches to any surface with 1 bolt or lag screw. Other models include mounting bracket and safety cable kit.

Dayton—Fan heads feature locking tilt adjustment for directional air flow. Bracket and secondary safety support cable included.

Dayton Quiet-Design—Provide high-velocity air flow in settings such as schools, libraries, churches, offices, or other quiet environments. Bracket and secondary safety support cable included.

Standard-Duty Industrial Wall-Mount Fans

Fans cool heavy manufacturing areas and other dusty or dirty environments with limited floor space.

Schaefer—Designed for agriculture, horticulture or industrial applications. Wall-mount units include mounting bracket.

- Ball bearings
- Zinc plated wire guards

Big Ass Fans—55FF65 and 55FF67 have 360° rotation and 40° tilt. 744H99 features an EC motor and 360° rotation. 326VG8 has an IP65 EC motor and an occupancy sensor. For cleaner, healthier air, find fans with Ion Kits on Grainger.com.

- OSHA-compliant guards, except 55FF68

Dayton—Fan heads feature locking tilt adjustment for directional air flow. 115VAC models include 3-cond. power cord; others are hardwired. Bracket and secondary safety support cable included.

- Ball bearings
- OSHA-compliant wire guards

Dayton Quiet-Design—Designed to provide high-velocity air flow in settings such as schools, libraries, churches, offices, or other quiet environments. Bracket and secondary safety support cable included.

Airmaster Fan—Fans include a mounting bracket and secondary safety support cable kit.

- OSHA-compliant wire guards
