

## Heavy-Duty Portable Air Conditioners

- Air-cooled vented
- Self-contained units are easy to install and operate

Provide cool, dehumidified air for cooling people, processes, and equipment. They're commonly used to cool assembly lines and critical processes.

**Climate Pro K Series—**  
Models are designed for heat-sensitive server rooms, hospitals, laboratories, schools, and stuffy offices. May be used for emergency backup and supplemental cooling applications.

**Climate Pro X and Classic Series—**  
Designed to spot cool warehouses, manufacturing plants, and outdoor events. Also suitable for process cooling and moisture removal.

**Climate Pro D Series (Heat Pump)—**  
Portable heat pumps feature reversible operation to switch between cooling and heating modes for year-round climate control in moderate climates.

**MOVINCOOL**  
The #1 Spot Cooling Solution

**Climate Pro K60**

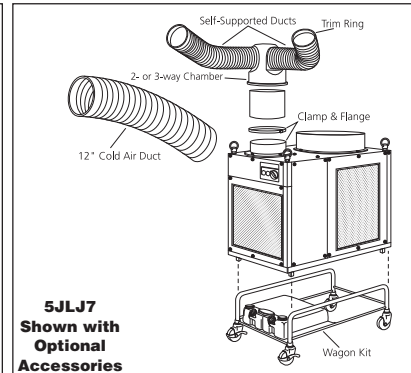

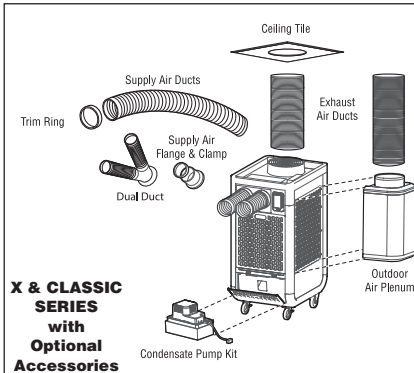

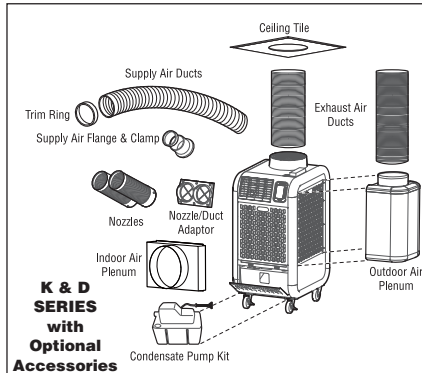

**Climate Pro X14**

**Climate Pro D12**
