

Bell & Gossett

KECKLEY

Mueller Steam Specialty™

Cast Iron Y Strainers

These strainers are preferred in low-pressure and low-temperature piping systems. They protect control valves, pumps, and other process equipment from contaminants in water, oil, gas, and steam applications. Screen included.

Carbon Steel Y Strainers

- 304 stainless steel screen

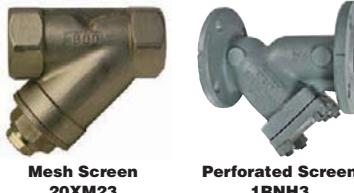

Strainers are extremely strong to resist high pressures, high temperatures, and leaks, and withstand mechanical shocks and stress. Carbon steel strainers protect pumps, control valves, and other process equipment from contaminants in oil and petrochemical industries. Screen included.

Mueller Steam Specialty™

Stainless Steel Y Strainers

Resists corrosion from caustic chemicals, corrosive fluids, oils, and gases, and withstands pressure and high temperatures. These strainers protect processing equipment from contaminants found in water management, food, pharmaceutical, and chemical processing, and industrial applications. Screen included.

KECKLEY Bronze & Brass Y Strainers

- Mesh screen
- 304 stainless steel screen
- NPT connection

Bronze
6NPW9

Brass
20XM11

Strainers protect pumps, valves, and other process equipment from contaminants found in water, oil, gas, and steam applications.

Bronze Y Strainers resist corrosion from saltwater and have higher heat and electrical conductivity than most metals.

Brass Y Strainers are an alloy of copper and zinc that withstands high temperatures and corrosion from water, heat, acids, and minerals.

Pipe Size	Screen Size	Maximum Pressure at 100 deg F	H	L	Includes Screen	Brand	Item No.
