Air Handler® purafil Filtration Group®
LEED Green-Building-Compliant Pleated Air Filters

- MERV 13
- Standard capacity, except where noted
- Synthetic media
- Moisture-resistant die-cut beverage board frame
- Wire-backed design
- UL Classified

Meet the air-filtration efficiency criteria required for earning points toward LEED (Leadership in Energy and Environmental Design) Green Building certification. Slim format allows upgrades from medium-efficiency pleated filtration without investing in new equipment.

Air Handler®
High Strength Performance Pleat Air Filters

- MERV 8
- High capacity
- Low-resistance synthetic media
- Moisture-resistant die-cut beverage board frame
- Wire-backed design
- UL Classified

Extremely strong and durable under difficult operating conditions, including high-moisture applications. Can hold more dust than MERV 8 general use pleated air filters, so they need to be replaced less often. Manufactured with a heavy-duty, galvanized expanded metal support grid and moisture-resistant adhesive.

Air Handler®
Allergen Reduction Pleated Air Filters

- MERV 12
- Standard capacity
- Synthetic media
- Moisture-resistant die-cut beverage board frame
- Wire-backed design
- UL Classified

Electrostatically enhanced to attract even the smallest particles from the air, including microbes, pet dander, mold, and bacteria.

Air Handler®
High Strength Diamond Pleated Air Filters

- High capacity
- Low-resistance synthetic media
- Moisture-resistant die-cut beverage board frame
- Wire-backed design
- UL Classified

Have an internal wire frame that reinforces the filter to prevent it from blowing out in applications where the HVAC system may place increased pressure on the filter due to high velocities or high moisture.

Note: The filter media color may be white or yellow.
