

Prewired Outlet Raceways Strips

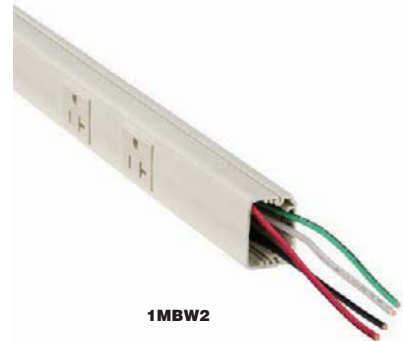

Brings power to new spaces or modify wiring in existing areas. They're prewired and include multiple outlets, so they don't require installing separate wiring, raceway, or outlet components. Strips surface-mount on walls and hardwire to existing electrical systems or larger raceway systems.

Outlet Power Poles

- 2 channel
- 5-20R NEMA outlets

Bring power and communications wiring from the ceiling down to workstations and equipment. They're ideal when there isn't a wall nearby to bring in a surface-mounted raceway. They're typically placed in offices, manufacturing facilities, and labs.
