FRIGIDAIRE LG perfect air® FRIEDRICH

## Residential-Grade Window Air Conditioners

- Programmable, except 470D39 and 61CZ61
- 24-hr. timer, except 470D39 and 61CZ61

Units are made of residential-grade materials and have a decorative front grille that blends in with home interiors. Typically used to cool rooms in houses and apartments. Remote capability, except 470D39 and 61CZ61.

**Frigidaire**—FHW models are Wi-Fi capable.

**LG**—61CZ62 has a variable-speed compressor that adjusts the compressor motor speed to regulate temperature for greater energy efficiency.

**Perfect Aire**—Feature a remote control with a built-in room temperature sensor that regulates room temperature around the remote, allowing the remote to become the thermostat.

**Friedrich**—CCW and CEW models can be installed in a window or through the wall. All units can be managed via Wi-Fi to allow centralized control of settings. Compatible with Amazon Alexa and Google Home. Units have Seacoast Protection to guard against corrosion.

- Quiet operation
- Auto restart
- Left/right reversible power cord
- Washable filter

## Hazardous Location Through-the-Wall Air Conditioners

▪ Hot gas bypass for cooling operation at low ambient temps., down to 45°F (7°C) without freezing  
Sealed motor and solid-state relays prevent sparking while cooling potentially hazardous environments. Can be used where flammable gases, vapors, and liquids are handled or used within enclosed containers or systems, but are not normally present in concentrations high enough to be ignitable. Commonly used to cool laboratories, control rooms, and storage areas. These commercial-grade units have an e-coated coil and powder-coated steel cabinet to resist corrosion. Units are hardwired and have a 15A circuit with a time-delay fuse. Meet ANSI/UL 484 Room A/C, SASO 2681, UL Listed for use in Class I, Div. 2, Groups A, B, C and D, ISA 12.12.101, and NFPA 70.
