Portable Evaporative Coolers

Provide cool, humidified air in areas without combustible vapors, gases, or dust. They require regularly draining and cleaning the water tank and allowing the media to dry thoroughly between uses to prevent odors and clogging from sludge buildup.

Hazardous Location Evaporative Coolers

- 115VAC
- 1 speed

Orange housing color. Sealed switches, cords, motors, and pumps prevent sparking. Rated for Class 1, Division 2 areas where flammable gases, vapors, and liquids are handled or used within

enclosed containers or systems, but are not normally present in concentrations high enough to be ignitable. Commonly used in chemical plants, refineries, fuel depots, and garages. They require regularly draining and cleaning the water tank and allowing the media to dry thoroughly between uses to prevent odors and clogging from sludge buildup.
