

**Charging and Evacuation Hoses**

- Working pressure: 800 psi
- Burst pressure: 4000 psi

**Dayton**—Compatible with HCFC and HFC refrigerants, including R-410A.

**JB Industries Kobra Kevlar**—Hoses feature secure seal fittings and are for use with R-410A.

**Imperial Kevlar-Lined PolarShield**—Can be used with all blends of refrigerants. Adjustable brass core depressor to match valve core. 905 Series hoses have 1/4" FFL connections with auto shut-off on 1 end. 6T370 and 6T371 have permanently attached straight Kwik-Coupler shut-off connector at 1 end of each hose. R-410A compatible.

**Yellow Jacket PLUS II**—Hoses feature double barrier protection and are compatible with all refrigerants, including R410A. Compact ball valves recommended for R410A; SealRight fittings feature low loss anti-blow back connection; standard ends offer an "Adjust-a-Valve" depressor.
