

Twistable Drop-Over Cable Ramps

■ ABS material

Twistable drop-over cable ramps articulate from side to side, allowing them to turn corners and adapt to an area's layout while maintaining a flat profile. They have an interlocking design which allows for reconfigurations, repairs, or replacements without moving cable or hose.

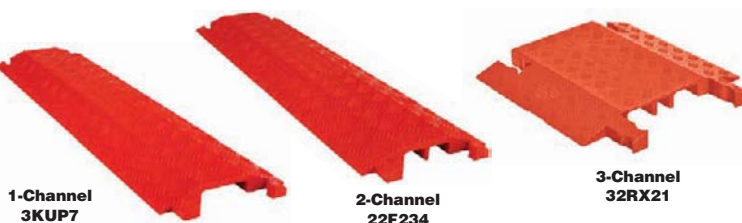

Max. Cable Dia.	Length	W	H	Load Capacity	BLACK/YELLOW Item No.	BLACK Item No.

Drop-Over Modular Cable Ramps

■ Polyurethane material

Drop-over modular cable ramps are placed over cable and hose lines that run along the ground. They have an interlocking design, which allows for reconfigurations, repairs, or replacements without moving cable or hose. These cable ramps prevent damage due to foot and vehicle traffic.

Lightweight Drop-Over Cable Ramps

■ Polyurethane material

Lightweight drop-over cable ramps are placed over cable and hose lines that run along the ground and have a lightweight construction that helps facilitate setup. These cable ramps protect the lines from damage due to foot and vehicle traffic.

Aluminum Drop-Over Cable Ramps

■ Aluminum material

Cable ramps drop over power cords, electrical cable, and hydraulic hose to protect them from damage and prevent tripping hazards. They support heavy loads from forklifts, carts, vehicles, and personnel.
