<b>Power Strip Mounting System</b>												
Power Strip Mounting System, Fits 3/4 in to 2 1/4 in dia Pole, Includes Cord Wrap, Drip Shield											Tripp Lite	25D146

## Surge-Protected Power Strips

These power strips protect connected devices from damage due to unexpected voltage increases. They have a surge protector that absorbs the excess voltage and diverts it to the ground wire, preventing it from reaching the connected equipment. A surge protector's joule rating determines how much energy it can absorb before it fails. They are suitable for homes, offices, medical facilities, and industrial environments where protection from power spikes is needed.

Total Number of Outlets	Cord Length	Rated Surge Joules	Max. Surge Current	Max. Amps	Plug Configuration	Receptacle Configuration	Color	Power Indicator	Coax Surge Protection	Telephone Surge Protection	USB Protection	L	W	Brand	Item No.
