## Lay-In Cable Ramps

- Polyurethane material

Ramps have one or more channels to place cable and hose in, keeping them off the floor and protecting them from wear and tear. They have an interlocking design which allows for reconfigurations, repairs, or replacements without moving cable or hose.

Connection Style	Max. Cable Dia.	Length	W	H	Load Capacity	Color	Brand	Item No.

## ADA Accessibility Cable Ramps

- Polyurethane material

ADA accessibility ramps cover cable and hose while complying with ADA requirements. They provide a

more gradual slope than other cable ramps and are slip-resistant to ensure smooth crossover for wheelchairs and pedestrians with disabilities.

## Cable & Hose Bridges

- Polyurethane material

Cable and hose bridges safeguard against vehicle traffic. They drop over cable and hose lines to protect them against pressure from heavy vehicles and help reduce maintenance and replacement costs.
