

Braided Sleeving for Wire and Cable Management

■ UL Recognized
For bundling, managing, and protecting wires, cables, and hoses. Most are black (Flexo Flame-Retardant has white tracer). ThermaShield are silver and FireFlex are red. Most types cut cleanly with a hot knife. Flexo F6 Self-Wrap, DuraFlex, ThermaShield tubes and wrap, and Flexo Clean-Cut are cut with scissors or knife. Insultherm cuts with scissors only.

DURAFLEX HARSH ENVIRONMENT
■ Thick, tightly woven nylon
■ Resists UV, chemicals, gasoline, salt, snags, cuts, abrasion, and penetration
■ Deflects high-pressure hose ruptures
■ MSHA
Rot resistant for continuous outdoor use.

WELD WRAP
■ Coated fiberglass
■ Withstands temps. to 1000°F
■ Resists abrasion and punctures
■ FED 191/5093
Protects hoses and wiring from molten welding splatter and sparks.

THERMASHIELD REFLECTIVE
■ Withstands temps. to 500°F
■ Resists gasoline, engine chemicals, cuts, and abrasion
Aluminized heat shield is bonded to tightly braided, insulating fiberglass. Wrap uses a high-temp. adhesive.

DURAWRAP HARSH ENVIRONMENT
■ Tightly woven ballistic nylon
■ Hook-and-loop closure

■ Resists UV, abrasion, gasoline, engine chemicals, and salt water
■ Deflects high-pressure hose ruptures
Overlarge sleeving can be used over chain as a scuff preventive.

FIREFLEX HIGH-TEMPERATURE
■ Silicone-jacketed fiberglass
■ Nonconductive
■ Stable to 500°F
■ Resists abrasion and punctures
0.08"-thick sleeving bends to follow tight curves. For racing vehicles and similarly demanding industries.

GORILLA SLEEVE
■ Flat-filament nylon
■ Resists UV, gasoline, engine chemicals, and salt water
0.046" thick for extreme abrasion and cut resistance.
