Lighting Dimmers

■ Hard Wired

Lighting dimmers allow users to vary the amount of voltage reaching a light fixture, which varies the brightness of the lamp. Light dimmer switches are variable-voltage devices designed to vary the brightness of lights by decreasing or increasing RMS voltage.

Lighting Technology	Switch Type	No. of Gangs	Operating Voltage	Max. Capacity @ 120VAC	Series	White Item No.	Ivory Item No.	Almond Item No.	Light Almond Item No.
