Task Lights

Versatile lights deliver strong illumination and are ideal for workstations and desktops in production, inspection, medical, and research applications.

Articulating Arm—Articulating arm system is easy to move and can be maintained in a fixed position.

Clamp-On—Lightweight lamps conveniently clip to desktops and workstations for quick and powerful light source.

Gooseneck—Deliver bright light and have a flexible neck that allows easy adjustment to desired position.

Pivoting Head—Swivel head allows adjustment and maneuverability.
