Centrifuges

Microliter Centrifuges—For use in molecular biology applications such as PCR, DNA and RNA extraction. Available with or without temperature control.

MyFUGE Mini Benchtop Centrifuges—Space-saving personal centrifuge has easy lid-activated Start/Stop control. Near-silent operation.

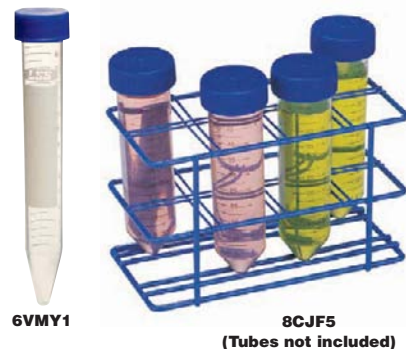

- Includes adapters for 0.5 and 0.2mL
- Choose lid color: blue, green, red, purple, or clear

Benchtop Centrifuges—General purpose centrifuges are for spinning blood, urine, cell/tissue culture, plates, and bottles. 38LZ08, 38LZ41, and 38LZ39 have a robust temp. control system and feature a Versa-Rotor, one rotor for multiple applications.

USA E8 Variable-Speed Benchtop Centrifuge—Angled table top unit spins up to 8 tubes with precision results.

USA E8 Portable Centrifuges—Angled 8-place centrifuges include a car power cord and a car seat for easy operation in the field.

Conical Centrifuge Tubes and Racks

Tubes—Polypropylene tubes have white writing area on tube and included polypropylene cap. Glass tubes have phenolic screw caps with PTFE-faced rubber liner.

Racks—Conical Tube Racks are epoxy-coated steel wire, steam-autoclavable and have 30mm square holes. Pop-Up Tube Racks are sturdy polypropylene.

Microcentrifuge Tubes and Racks

Tubes—Polypropylene tubes have attached caps and conical bottoms, except 11L820 is self-standing. 6VMX6 to 6VMX9 have frosted marking area and syringe-pierceable caps. 11L817 to 11L820 have engraved graduations and are autoclavable.

Racks—11L554 and 11L556 are reversible. 11L560 is for PCR sampling.

- Polypropylene with molded-in coordinates
- Pkg. of 5
