

For more information on the contents of each tool set, go to Grainger.com.

Nonsparking Tool Sets

Resist sparking to reduce the risk of ignition where combustible dust or flammable liquids, gas, or vapors are present.

Tool Box—Deep body to store tools, a hard shell to protect them, and a top handle to lift and carry the box. Hinged top swings open for access to load/unload tools.

Tool Bucket—Round body provides a roomy interior and a flat bottom to stand upright. Lid keeps tools contained and protects them from damage.

Tool Case—Folds open to make tools visible for selection; folds closed to protect tools from damage. Slots keep tools from sliding around during transport.

Tool Roll—Lies flat to load or lay out tools and roll ups for storage. Slots or pockets keep tools from sliding around during transport.
