Jobsite Boxes

- Padlockable

Provide a large space to store and secure tools at indoor and outdoor worksites. Heavy-gauge steel. Weather-resistant.

Chest-style—A wide, undivided interior stores tool boxes, tool organizers, and long or bulky tools. Hinged lid lifts for access to load and unload the box.

Chest-style with drawers—Provide additional space to sort and organize tools.

Drop-front—Hinged lid lifts to fully open the top, and a front panel folds down to form a ramp for moving large tools and equipment in and out of the box.

Piano-style—Stand taller than chest-style boxes for increased storage capacity. Multi-panel, hinged lid lifts and folds together to open the front and top of the box.

Piano-style with drawers—Provide additional space to sort and organize tools.

Slope-lid—Angled sides allow the lid to slant downwards to keep water and debris from collecting on top of the box.
