Plastic Tool Cases

Portable, hard shell cases protect tools from damage. Two connected halves fold out on a central hinge for access to both sides at once. Compartments organize tools, parts, and supplies. Carrying handle eases transport. **Rolling tool cases** have wheels and an extendable handle to transport tools across a worksite.

Plastic Tool Boxes

Lightweight, portable boxes have a deep body for tool storage. A hinged lid swings open for access to load and unload tools. They won't dent or rust, and they have no sharp corners that could gouge or scratch surfaces.

Plastic rolling tool boxes—Wheeled for transporting between locations. Extendable handle for pulling heavy loads.

Plastic tool boxes—Top handle for carrying between locations.

Plastic tool box sets—Include multiple boxes to store and organize tools, parts, and supplies.

Plastic rolling tool box sets—Consist of multiple storage containers that fit together for transport as a single unit. Wheeled bottom container provides a stable base for stacked containers.
