## Spanner & Pipe Wrenches

Scan. Order. Done.  
Details on page A1.

**Multi-Size Adjustable**  
**36T985**

**Adjustable Face**  
**1APC1**

**Adjustable Hook**  
**1APC4**

## Spanner Wrenches

Wrenches with pins or hooks tighten or loosen threaded collars, retainer rings, shafts, or pipes and faucets in hard-to-reach areas.

**Adjustable-Pin Spanners**—An adjustable head tightens or loosens a variety of bearings, lock nut rings, and servicing collars.

**Multi-Size Adjustable Pin Spanners**—Multiple interchangeable pins allow for installation or removal of a variety of nut sizes.

**Fixed-Pin Spanners**—A curved arm with a small pin or nub fits into the nut to loosen or tighten it.

**Adjustable Face Spanners**—Hinged and V-shaped to fit different diameters. They grip round holes on the face of collars, bearings, and other machine tool components to loosen or tighten them.

**Adjustable-Hook Spanners**—A hinged hook or adjustable head with a hook fits into a hole on the bearing, lock nut ring, and servicing collar to loosen or tighten it.

**Fixed-Hook Spanners**—A curved arm with a hook on the end fits into the nut to loosen or tighten it.

## Pipe Wrench Sets

- Serrated jaw
- Turn threaded pipe and pipe fittings.

Number of Pieces	Jaw Cap.	Overall Length	Handle Type	Tether Style	Brand	Item No.
<b>Straight</b>						
<b>Aluminum Handle Material</b>						
2	1 1/2 in, 2 in	10 in, 14 in	I-Beam	Tether Capable	Westward	4YR92
<b>Cast Iron Handle Material</b>						
2	2 in, 2 1/2 in	12 in, 18 in	I-Beam	Tether Capable	Westward	4PL94
<b>Swedish Steel Handle Material</b>						
3	2 in	5 51/100 in	Ergonomic	Not Tether Capable	Rothenberger	60EG18
4	1 1/2 in	6 in	Ergonomic	Not Tether Capable	Rothenberger	60EG19

## Pipe Wrenches

- Serrated jaw texture except where noted

Adjustable jaws grip and turn threaded pipe and pipe fittings. **Ratcheting** wrenches allow one-handed operation without repositioning. Slim **Swedish** wrenches adjust jaw size via a nut. **Hex** wrenches grip hexagonal bolts and screws. **End pipe** wrenches fit against a wall or in tight spaces. The jaws of **Offset** wrenches open perpendicular to the handle for use overhead or in tight spaces.

**Straight**  
**3MA10**

**Straight with Valve Wheel End**  
**38HV32**

**Ratcheting**  
**4JA77**
