## BESSEY WESTAWARD

## L-, F-, Sliding-Arm Bar and J-Clamps

**L-Clamps**—Adjustable, rapid-acting sliding arm. All-steel, spring-tempered design. Hardened alloy steel spindles resist weld spatter. Adjustable swivel pads tilt to accommodate angular workpieces. Vibration-resistant.

**F-Clamps**—Heat-treated, spatter-resistant spindle and replaceable swivel-tilting pressure pad. 2JFU5 and 2JFU6 provide larger throat depth (reach).

Sliding-Arm Bar Clamps—Heat-treated, spatter-resistant spindle, swivel-tilting pressure pad, and a vibration-dampening design. Arc of the curve enables rail to hug workpiece. Fixed arm and pressure plate are tempered steel. 3YNA2 can be used at various angles for compressing and spreading.
