

Hammers and Replacement Tips

Quick-Change and Soft-Face Hammers—2 replaceable striking faces (tips) are made of plastic, vinyl, or nylon, and come in a variety of hardnesses. Tip diameters match the size of the hammer and screw onto the hammer head.

Split-Head Hammers—Similar to Soft-Face, however, tips are contained in the split head. To replace tips, the head is disassembled into halves, and the tips are clamped rather than screwed in.

TIP SELECTION GUIDE	
Description	Replaces Hammer Type
Soft	Rubber, Wood, Soft Lead, Brass
Medium	Rawhide, Wood, Plastic, Lead
Tough	Rawhide, Hardwood, Plastic
Hard	Rawhide, Plastic, Micarta, Fiber
Extra-Hard	All Metal Working Applications

Indestructible Handle Hammers

All handles are rubber molded over spring steel bars. Non-sparking tools feature a copper head, all others heads are carbon steel.
