- For additional laser and optical laser level accessories, see Grainger.com

### OPTICAL LEVELS

**DeWalt Auto Level**—Magnetically dampened compensator for optimum range and accuracy. Heavy-duty leveling base is fast and easy to set up and level. 360° horizontal circle for precise measuring of horizontal angles.

**DeWalt Builder's Level**—Protected leveling vial for jobsite durability. Heavy-duty leveling base is fast and easy to set up and level. 360° horizontal circle with vernier scale for precise measuring of horizontal angles.

**Johnson Automatic Levels**—Wire-hung compensator with reinforced housing has a large aperture for crisp images. Durable scope and bubble vial. Horizontal circle with easy-to-read black-on-white graduations. Large, stable base.

**Johnson Builder's Levels**—Has a horizontal circle graduated to single degrees and lens with protective sun shade. Horizontal tangent screw for precise movement control. Top-mounted leveling vial with large, easy-to-turn leveling screws. Suitable for light construction work.

### TRANSIT LEVELS

**DeWalt Transit Level**—Transit capability allows user to determine vertical angles. 360° horizontal circle with vernier scale for precise measuring of horizontal angles. Protected leveling vial for jobsite durability. Heavy-duty leveling base is fast and easy to set up and level.

**Johnson Builder's Transit Levels**—Graduated circle reads to single degree and to ¼-degree by vernier. Vernier arc reads 0° to 45°. Clamp and tangent screws for positive leveling action when used as a level.
