Flex-O-Twist		12 in L	Greenlee	439-1	4CN02

Fish Tapes and Wire/Cable Pullers

FISH TAPES

Steel—Nonmetallic case will not dent or rust. Winder slide is included for rewind of tape.

Smart Mark—Laser etched ft. and meter distance markings every 1 ft./0.3m (first mark is at 2 ft./0.6m). Speed Flex leader lets you fish farther and faster.

Magnum Pro Steel—Corrosion-resistant tape.

Flex-O-Twist—Tape slips through lateral locking and vertical bends.

Fiberglass—Nonconductive tape has low-friction coating and noncoiling properties.

Nylon—Curl-resistant nylon tape has 200 to 250-lb. tensile strength.

FISH LINE

Center feed assures payout without tangling. Can be pulled into the run with the wire, making it easy to add wires at a later date. Strong, lightweight nylon is mildew-resistant.

FISH STICKS

Push or pull wires over long distances, including subfloors, crawl spaces, and attics.

FISH RODS

Fiberglass rods provide added rigidity when multiple sections are threaded together. Glow-in-the-dark fishing stick 1FAH7 provides high visibility in dark spaces and includes three 5-ft. pieces for a total of 15 ft.
