

Manual Tube Cutters

For additional tube cutter replacement wheels, see Grainger.com

Midget—Use in restricted spaces on small-dia. hard and soft copper, aluminum, brass, and plastic.

Ratcheting—Cut copper, brass, stainless steel, plastics, and PVC. Facilitates work in tight areas.

| Description | Cutting Cap. | Overall Length | Brand | Item No. |

Pipe- and Tube-Cutting Machines

EZ Cutter—Cuts copper, brass, aluminum, thin-walled steel, and plastic-coated pipe. Include foot switch and pipe cutter wheel. 6RRU6 also includes 2 roller supports and 2 stationary supports.

Portable Electric Pipe Cutter—Cuts Schedule 40 steel pipe, galvanized pipe, and rigid conduit. 2 included ball transfer stands keep pipe level during cutting. Requires Model 700 Power Drive threader 1AC02, sold separately on page 870.

Hydraulic-Powered Pipe Cutters—Cut larger dia. cast iron, tile and concrete pipe. Like the hand-operated cutters, hydraulic cutters are not rotated around pipe. Remotely operated hydraulic pumps provide the required power. A 2"–3"

minimum clearance required to wrap cutter chain around pipe. Cutters include pump, hose and case.

Copper Tube Cutting Machine—Cuts, deburrs, and cleans copper tube and fittings. Includes reamer, 6 cleaning brushes, storage rack, and quick-change collet. Can be mounted on tripod stand 1VTV2, sold separately on page 871.

M12 Cordless Copper Tube Cutter—Cuts copper tubing, wet or dry. Runs on a 12V lithium ion battery; fuel gauge displays the remaining run time. Includes 1 battery, charger, and case.

Transport Cart—Engineered to help move compatible electric pipe cutters to and from the jobsite. 250-lb. load capacity. 14 3/4" W x 15" D x 42 3/4" H.
