C-Face Right-Angle Speed Reducers and Bases

WINSMITH
HIGH QUALITY SPEED REDUCERS

- Interchangeable with Winsmith MDNS models
- Double-shaft assembly
- Filled with Mobil Glygoyle 460 synthetic lubricant

Black coating system is scratch resistant and suitable for washdown and outdoor applications. Exceeds ASTM B-117, 1000-hr. salt spray test. Shaft slingers prevent contaminants from contacting oil seals. Open/close vent. Can be mounted with or without optional base using predrilled and tapped holes. Lubricant meets NSF requirements and is acceptable for incidental food contact (H1) areas.
