

Manual Jaw Pullers

These pullers enable you to remove and install parts for fast, effective repairs. The pullers are forged from quality steel, heat treated, and subjected to rigorous tests which exceed their rated capacity.

Nonreversible jaws have deeper jaws for fan blades and blower wheels.

Manual Puller Set

The T-handle and the safety cage control the jaws at all times. Opening, closing, locking and aligning of the jaws are all done automatically by simply turning the T-handle. Includes storage kit.
