1TMR1

## Transmission Bearing Pullers

Machined jaws clamp in snapping grooves as narrow as 0.07" to remove transmission bearings in minutes. Also effective for transfer cases on 4-wheel-drive vehicles, output shaft bearings, and other applications on many vehicles.

| Cap.   | Jaw Spread      | Jaw Reach | Mfr. Model | Item No. |
|--------|-----------------|-----------|------------|----------|
| 10 ton | 1/2 in to 7 in  | 6 in      | TJ-2       | 1TMR1    |
| 12 ton | 3/4 in to 12 in | 8 in      | TJ-1       | 1TMP9    |

## Steering Wheel Puller Kit

Engineered to remove steering wheels from most domestic and import cars with or without telescoping tilt columns.

| Includes                                                                                                                                                                                    | Mfr. Model | Item No. |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|----------|
| Puller Yoke and Screw Extension Bushing, Lock Plate Removal Tool, 2-pc. Puller Leg Package, Pivot Pin, Lock Plate Depressor Frame, Lock Plate Remover Collars and Nut Washer, Screw Package | 41620D     | 2HLF6    |

## Standard Puller Set

■ 6-ton capacity

Contains enough components to make over 20 of the most often used pullers including: internal, external, slide hammer, rear axle, and harmonic balancer. Includes molded plastic case.

| Includes                                                                                                                                                                                                         | Mfr. Model | Item No. |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|----------|
| T-Handle Slide Rod, Short Slide Rod, 5-lb., and 2 1/2 lb. Slide Hammers, 2- and 3-Jaw Yokes, 2- and 3-Way Slotted Crossarms, 4 and 6" Reversible Jaws, 2" Reach Inside Jaw, Gear and Bearing Splitter, and more. | J4290B     | 3R730    |

## Blind Hole Bearing Puller Set

Ideal for jobs that require an internal pull, such as pilot bearings. Includes 4 collets to fit a wide range of applications. Also includes a plastic storage case.

| Includes                                                    | Item No. |
|-------------------------------------------------------------|----------|
| 10-pc Attachment, 1-pc Slide Hammer, 3-pc. Pin, 1-pc Puller | 23KX50   |

## Hydraulic Puller

■ 12-ton capacity

Self-contained system features nonreversible jaws and interchangeable ram points for multiple shaft sizes and configurations.

| Includes                                                       | Mfr. Model | Item No. |
|----------------------------------------------------------------|------------|----------|
| Self Contained Manual Hydraulic Puller With 2 Pushing Adaptors | PHS-108    | 1TMR3    |

## Hydraulic Puller Set

■ 17 1/2-ton capacity

This set is designed to remove or install interference fit parts like gears, couplings, bearings, wheels, pulleys, axles, shafts, brake drums, and many other press fit components.

| Includes                                                                                                                                                                                       | Mfr. Model | Item No. |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|----------|
| Hydraulic Hand Pump, Threaded Insert, Tee Adapter, Pressure Gauge, 6 Foot Hydraulic Hose, Hose Half Coupler With Dust Cover, Hydraulic Push Puller With 18 in Legs, And 3 Jaw Hydraulic Puller | 1688       | 3Z962    |

29FX47

29FX48

## Flange Pullers

For use on harmonic balancers, steering wheels, crankshaft pulleys, and gear pulleys. Fits almost all automotive and light truck applications, domestic and imports, older and current models.

| Bolt Circle Dia. (in.) | Screw Size         | Item No. |
|------------------------|--------------------|----------|
| 1 to 2 3/8             | 5/8"-10            | 29FX47   |
| 1 1/2 to 4 3/8         | 5/8"-18 x 5 1/2 in | 29FX48   |
