

1-800-GRAINGER (472-4643)

## Manual Jaw Pullers

These pullers enable you to remove and install parts for fast, effective repairs. The pullers are forged from quality steel, heat treated, and subjected to rigorous tests which exceed their rated capacity.

Nonreversible jaws have deeper jaws for fan blades and blower wheels.

## OTC Shaft Protector Set

Protects shaft centers from distortion when extreme pressures are applied. Use with fan blade, gear, and bearing pullers.

No. of Pieces	Mfr. Model	Item No.
6	8056	5U731

## Mini Manual Puller Set

■ 1- to 2-ton capacity

Designed for small removal challenges. Ideal for lawn and garden equipment, snowmobiles and motorcycles, air tools, and more. Includes storage kit.

No. of Jaws	Jaw Reach (in.)	Jaw Spread (in.)	Type	Jaw Style	Mfr. Model	Item No.
2 or 3	3	1/4 to 4 1/2	Locking and self Aligning	Non-reversible	PMW-1	4GB36

## Reversible 2- or 3-Jaw Puller Set

Versatile pullers feature a narrow face on one end and a wide face on the other to create a 2-in-1 tool that saves you time and money. Jaws can easily be reversed by sliding the jaw to the end of the crossblock and turning them around 180°.

Cap.	No. of Jaws	Jaw Reach	Jaw Spread	Jaw Style	Item No.
5 ton	2 or 3	5 1/2 in (139.7mm)	8 in	Reversible	45FF29

## 4-In-1 Jaw Puller Kit

■ 7-ton capacity

Quick-and-easy assembly makes a 2-jaw or 3-jaw puller with the reach, spread, and power you need for all applications. It easily handles larger gears, bearings, pulleys, wheels, sprockets, and other press-fit parts.

No. of Jaws	Jaw Reach (in.)	Jaw Spread (in.)	Type	Jaw Style	Item No.
2 or 3	8 3/4	11	Manual	Double	23MD43

## Lock-On, Jaw-Type Puller Set

■ 5-ton capacity

Set contains versatile internal and external pullers that can be created to easily remove harmonic balancers, gears, bearing, timing gears, and other difficult parts. Includes sturdy storage case.

No. of Jaws	Jaw Reach (in.)	Jaw Spread (in.)	Type	Jaw Style	Item No.
2 or 3	4, 6 1/2	12, 8	Lock On Jaw	Straight	23MD47
