Buyers

Connect to trucks, utility vehicles, tractors, and other vehicles. Integrated steel augers. Sealed, heavy-duty 12V electric drive motors and transmissions. Rustproof spinners.

Pelletized Ice Melt, Seed, and Fertilizers—Has 20-ft. insulated harness with On/Off switch and a manual flow gate with 10-ft. cable to adjust the flow rate.

Rock Salt and Nonpelletized Ice Melt—2FGV4 has 20-ft. insulated harness with On/Off switch, manual flow gate with 10-ft. cable for adjusting flow rate, and a feed auger. 49XE20 has digital, variable-speed controller that allows easy control of spread width. Includes polyethylene lid. 36RM29 and 36RM31 are prewired for an optional vibrator kit (sold separately). 36RM31 includes variable-speed controller for adjusting flow rate.

Sand/Salt or Bulk Salt—Dual variable-speed controls adjust flow rate and spread width independently. Top screen stops rocks or large chunks from getting jammed in the auger. Built-in vibrator can be turned off and on. Mounting kit with straps included, except 49XE27 (mount is available separately). Material stays dry and safe while driving: 49XE21, 9X603, 9VPY0, 36RM30, and 36RM32 have a fitted hard lid; 4CAD4 has a fitted tarp. 36RM34 has a dual-action polymer lid.
