

1-800-GRAINGER (472-4643)

Battery-Powered Walk-Behind Mowers

- Cordless
- Adjustable handle

All mowers operate on rechargeable Lithium-Ion batteries for decreased emissions, noise and vibration.

Makita—Powered by two 18V LXT batteries. Platform mounted battery system holds 4 batteries for twice the run time. Motor delivers up to 3,600 RPM for faster cutting. The compact 18" deck is ideal for detailed landscaping. Lightweight, ergonomic plastic deck requires less push force. Bag holds up to 1.4 bushels of grass.

DeWalt—Brushless motor. Single lever adjusts height ranging from 1.5 inch to 3.4 inch. 3-in-1 mower for mulching, bagging, and side discharge. Fold-over handle plus lift handles make vertical storage quick and easy.

EGO—Yield up to 45-min. of cutting time on a single charge. LED headlights let you mow any time of day. Easy push-button starting. Fold flat for easy cleaning and storage.

Echo—Has dual battery compartments, simple key system activates the second battery. Offers 3-position handle adjustment and folds easily for compact vertical storage.

Gas-Powered Walk-Behind Mowers

- Self-propelled drive system

Husqvarna—Variable speed mower has an aluminum chassis, case transmission, and tire rims. Reinforced with side bumper for additional protection when mowing next to walls or other objects. Blade Brake Control (BBC) stops the blade from turning and leaves the engine running, enabling off-turf traversing and convenient stop and go operation. Offers single-lever blade height-adjustment. High-capacity collection bag designed to keep dust in the bag, preventing it from blowing in the operators face. Ergonomic handle folds down for easy transport.

Honda—Mulching discharge option leaves fine clippings on the lawn to retain moisture and provide nutrients while reducing removal time and expense. MicroCut twin-blade system uses 4 cutting surfaces to make ultrafine clippings for superior mulching and bagging. Offers 8 mowing heights. Roto-Stop blade stop lets you step away from the mower to empty the bag or clear items out of the way without stopping and restarting the engine. Hydrostatic cruise control transmission offers precise speed control from 2 to 4 mph, to change and maintain the right speed for mowing conditions. Rugged, 16-ga. heavy-duty steel deck with front bumper and edge guards.

HP	Cutting Width	Cutting Height	Discharge	Engine	Handle	Includes	Brand	Item No.
4.5 hp	20 in	1.45 in to 4.5 in	Rear	Kawasaki FJ180V	Adjustable	Bag	Husqvarna	793JX1
5.5 hp	21 in	¾ in to 4 in	Bag	Honda GXV160	Fixed	Bag, Bag Frame, Owner Manual	Honda	49U931

Gas-Powered Zero-Turn Riding Lawn Mowers

Extra wide cutting path cuts more grass in a single pass. The zero turn radius allows for tight, accurate turns around trees, corners, rocks and more. Electric start. Husqvarna models have a HydroGear transmission.

HP	Cutting Width	Cutting Height	Max. Speed	Discharge	Engine	Brand	Item No.
18 hp	42 in	1 ¹ / ₂ to 4 in	6.5 mph (Forward)	Side	Kawasaki	Husqvarna	792HW2
