Gas-Powered Walk-Behind Blowers

Rolling blowers ease leaf, debris, and litter removal, as well as pavement surface preparation. An innovative aim and shoot feature allows fingertip airflow direction control. Lightweight rust- and dent-resistant composite housing has smooth, rounded edges for maximum performance and low noise.

Description	Engine Displacement	HP	Max. Air Flow	Max. Air Speed	Item No.
Walk-Behind Blowers					
Subaru Engine	205 cc	6 hp	1,090 cfm	200 mph	5NLF8
Honda OHV Engine	389 cc	13 hp	2,600 cfm	200 mph	6TFH5
Briggs & Stratton Vanguard Engine	408 cc	14 hp	2,600 cfm	200 mph	793L14
Blower Accessories					
Hose Kit, For Use With 5NLF8					5NLG1

Utility Task Vehicles (UTVs)

Hauler Series vehicles are available with gas or electric engines. They are ideal for country club groundskeeping crews to transport tools and materials around golf courses. Feature CVT transmission and a lifted, leaf spring suspension with hydraulic shock absorbers. Models with beds are manual lift. **Gas Powered** models offer a single-cylinder OHV, 401cc Kawasaki engine, automatic drive system, and 5.8 gal fuel tank capacity. **Electric Powered** vehicles have powerful Samsung engines with a solid state, continuously variable, separately excited speed controller and motor shaft direct drive. Also offer a dash-mounted direction selector switch (forward-neutral-reverse) plus reduced speed reverse. Use a 56V AC Li-Ion battery.

NOTE: Replacement parts are available on Grainger.com.
