Propane Outdoor Brush and Weed Torch Kits

All torches use propane cylinders for fuel and have an adjustable flame and a fixed tip wand. Offer an easy-to-use method for controlling weeds around rocks, pavers, and driveways. Can also be used for driveway repairs, lighting fire pits, or to melt snow and ice. **Low- and Medium-Capacity** torches have a wide brush flame. **High-Capacity Jet** torches produce a large jet flame for clearing heavy weeds and brush along road ditches, fence rows, and culverts. **Propane Cylinder Hand Truck** includes flat-free wheels and a securing strap.

Help control grass, weeds, noxious plants, and invasive species. Selective herbicides kill only specific plants they are designed to target. Nonselective herbicides kill any plant they come into contact with. RTU (Ready-to-Use) products require no mixing. 56EC11 includes a hand sprayer. 36WG58 includes (2) AA batteries. 5WXR8 kills cut stumps and stops resprouts. Features a blue dye to let you keep track of treated stumps. 8MJY0 is for broad-spectrum control of brush, broadleaf weeds, and multiple woody species. Horticultural Vinegar is a natural and effective alternative to harsh chemicals, works as a cleaner and kills undesirable plants.

Anchor Pins—11-ga. steel pins can also be used on drip irrigation tubing.

Landscape Fabric and Weed Barrier—Tear-resistant Landscape Fabric helps control weed growth, and is striped every 12" to aid with plant alignment. Weed Barrier blocks weeds and conserves moisture, while allowing air, water, and nutrients to reach plants.

Plant Protection—Lets through air and moisture, while helping protect plants and flowers from freezing temperatures.

Tree Grates and Mats

Increase survivability and improve growth in tree and shrub plantings.

All black plastic **Tree Grates** are lightweight and easy to install. Center opening can be expanded with standard saw blade.

Tree Mats conserve moisture and stop weed growth without chemicals and eliminate the need for mulch or rock cover. Black color.
